

CHARLIE PELLE

FULLSTACK DEVELOPER

Bago City, Negros Occidental, Philippines | 09462124217 | charlied.pelle@gmail.com | <https://github.com/ItsChaBTW>

PROFESSIONAL SUMMARY

Detail-oriented Backend and Full Stack Web Developer with extensive experience in building scalable web systems and database-driven applications. Proficient in PHP, Laravel, and JavaScript, with a solid track record of improving application performance and delivering production-ready solutions. Adept at collaborating with cross-functional teams to transform user needs into robust software applications.

EDUCATION

Bachelor of Science in Information Systems (BSIS)	2021 – 2025
<i>Bago City College</i>	

PROJECTS

THYNK Disaster Response Network	2025
<i>Project Manager / Developer</i>	

- Designed and implemented a comprehensive disaster response coordination system, streamlining resource management and operational response.
- Developed secure backend services for operational data management and coordination, improving response times by ~40%.

Local Youth Development Office (LYDO) Website	2024
<i>Main Developer</i>	https://lydo.bccbsis.com/

- Created a government platform for managing youth services, enhancing accessibility to youth programs and announcements.
- Implemented administrative dashboards that improved program management efficiency by ~30%.

BCC QR Time Attendance Platform	2023
<i>Main Developer</i>	https://bcctap.bccbsis.com/

- Developed a QR Code-based attendance tracking system, automating attendance recording processes to save ~10 hours weekly.
- Implemented real-time data processing features, enabling quick report generation for administrative purposes.

Bago City EDUGRANT EXAMINATION PORTAL	2026
<i>FULL STACK DEVELOPER</i>	https://lydo.bccbsis.com/LYDOPORTAL/

- Developed an integrated scholarship management system where the EDUGRANT platform handles student application submissions, document verification, and applicant tracking processes.
- Implemented a connected online examination portal through LYDO Portal, allowing verified applicants to securely take scholarship examinations with automated question management and real-time result processing.
